

Leading Technology in Real-Time Asset Management Since 1995

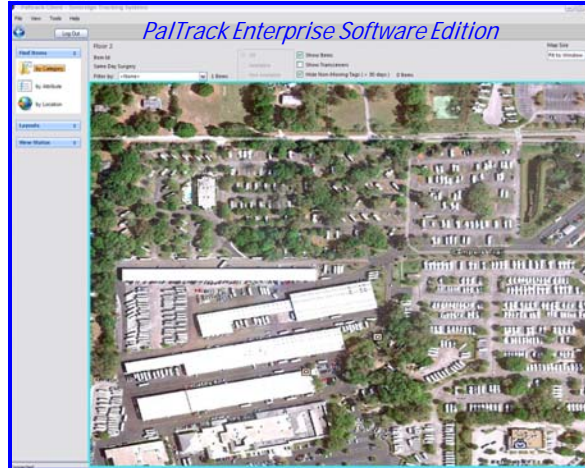

Sovereign

Technologies Corporation

For RV's, Campgrounds and Children

PalTrack RV Security Solution (RVSS)

Performs Real-Time Monitoring of RV's Campgrounds and Children

The Most Cost Effective Way to Monitor your RV and Children

The Fastest, Easiest and most Efficient way to:

- Reduce insurance cost by installing Sovereign's RVSS Monitoring System.
- Provide cost effective Monitoring of RV's, Motorhomes and Children at Campgrounds.
- Automatically Remotely Monitor in Real-Time any Assets contained at your campground.
- Provide Monitoring Locally, Nationally or Worldwide.
- Provide Instant Real-Time Inventory Audits and Reports.
- Provide Real-Time Monitoring of Assets and Equipment: (engine, generator, TV's etc)
- Reduce Human Errors.
- Provide Notification of Asset / personnel / movement or departure without using costly GPS or Cellular technology.
- Provide RV Campgrounds with a comfort level that their Guest, Children and assets are being Continuously Monitored in Real-Time.

Sovereign performs all Remote Monitoring in Real-Time

The RVSS system provides Real-Time Asset Management Solutions to Reduce Financial Risks. Establishes a proactive Safety and Security process for Campgrounds, Guest and their Children. Provides Real-Time monitoring for RV's and Assets, and allows for insurance coat reductions.
